

December 4, 2009

Dear Parent or Guardian:

On December 1st, Cape County Health Department (CCHD) was present in each of the elementary schools to offer the second dose of the H1N1 vaccine needed for students under the age of 10. If you missed this opportunity, please take your consent form to CCHD, located at 1121 Linden. You may still receive the second dose but it will only be offered at CCHD.

If you need another copy of the consent form for the second dose of the vaccine, it is posted on our school website. When you enter CCHD please let them know that your child is a Cape Girardeau Public School student and you are there for your second dose.

Sincerely,

Deena Ring
Director of Special Services
