

If you test **POSITIVE**, regardless of vaccination status

Quarantine 10 days

If you are experiencing symptoms, quarantine begins the day symptoms started

If you are not experiencing symptoms, quarantine begins the day you were tested

If you are a **Close Contact** to someone who tests positive
(within 6 feet for ≥15 min. if one or more person not masking properly)

NOT VACCINATED →

Quarantine 10 days from last close contact

If you remain asymptomatic and test **negative** on **Days 5-7**, you may return on **Day 8**

FULLY VACCINATED
(2 WEEKS SINCE LAST DOSE)

If the positive person lives in the same household and **cannot isolate**, quarantine **20 days** from exposure

Mask for **14 days**. If you test negative 3-5 days after exposure, you may discontinue mask wearing

NOTE: FINAL DECISION ON QUARANTINE LENGTH WILL BE MADE BY DISTRICT CONTACT TRACER
